ABOUT US

Betamer Madencilik: Nature's Delicacy, Architecture's Aesthetics

Founded in 1990 with a commitment to nature, Betamer Madencilik embarked on its journey with marble quarrying and factory management. With our deep-rooted experience and expert team, we intricately carve the unique beauty and elegance of natural stone,

aiming for the pinnacle of aesthetics and engineering. Values from Our Roots: Excellence and Quality
In the early 2000s, we left our mark on a wide spectrum of projects, from domestic and international airports to hospitals, stadiums, private, and public buildings. We infuse spaces with the distinctive aesthetics of natural stone, where each project mirrors our sense of aesthetics and engineering prowess. Innovation and Tradition United

At Betamer Madencilik, we blend traditional craftsmanship with modern innovation. Through our plate sales depot and workshop services, we provide our customers with the highest quality natural stone products. Our skilled team combines the finest attributes of natural stone with design, transforming your dreams into reality. Harmonious Work with Nature

We not only process marble but also pledge to work in harmony with nature. Upholding the principle of sustainability, we utilize eco-friendly production methods to leave a livable world for future generations.

You Imagine, We Accomplish

At Betamer Madencilik, our goal is to turn our customers' dreams into reality. We bring the beauty of nature and the unique aesthetics of natural stone to your projects.
We don't just work with stone; we create spaces where life flourishes.

With Betamer Madencilik, bring the splendor of nature to your spaces and experience this unparalleled journey.

OUR MISSION

Our mission at Betamer Mining is to add an artistic touch to spaces by crafting the unique beauty and elegance of natural stone. Through creative designs, we offer distinctive and impactful solutions to our clients, bringing together aesthetics and engineering marvels. Utilizing natural resources in a sustainable manner, we aim to leave behind an environmentally viable world for future generations.

OUR VISION

Our vision at Betamer Mining is to harness the unparalleled aesthetics and functional attributes of natural stone to the highest extent in projects worldwide. As we secure a pioneering position in the industry with innovative approaches, we aspire to provide an environmentally conscious model through harmonious production methods with nature. Upholding principles of innovation and excellence, we will continue to create inspiring spaces for our clients.
